Subject Index to Volume 7

A

- Abstracts, 58, 204
- AIDS (acquired immune deficiency syndrome):
 - calcified cytooid bodies in, 84
 - varicella-zoster retinitis in, 9
- Amphotericin, intravenous, for cryptococcal chorioretinitis and endophthalmitis, 75
- Animal model:
 - age-related macular degeneration, 198
 - intravitreal clearance of liposome-encapsulated ganciclovir, 227
- Antibody(ies):
 - anticardiolipin, 215
 - antiphospholipid, 215
- Anticardiolipin antibodies, 215
- Antiphospholipid antibodies, in retinal vascular disease, 215
- Argon laser:
 - binocular indirect ophthalmoscope delivery system, 28
 - photocoagulation, for central serous chorioretinopathy, 162
- Astigmatism, after pars plana vitrectomy, 223
- Astrocytoma, giant cell, of retina, 183

B

- Behavior, type A, central serous chorioretinopathy and, 111
- Berlin's edema, blood-retinal barrier in, 233
- Blood-retinal barrier, in Berlin's edema, 233
- Book review: *Intravitreal Surgery: Principles and Practice*, G. A. Peyman and J. A. Schulman, 132

C

- Catecholamines, central serous chorioretinopathy and, 111
- Central nervous system anomalies, in Usher's syndrome, magnetic resonance imaging, 241
- Chorioretinitis, cryptococcal, 75
- Chorioretinopathy, central serous:
 - laser photocoagulation in, 162
 - type A behavior and, 111
- Choroid:
 - melanoma, $^{106}\text{Ru}/^{106}\text{Rh}$ plaque therapy, fluorescein angiographic follow-up, 148
 - neovascularization, in choroideremia, 70
 - subfoveal neovascular membranes, in ocular histoplasmosis syndrome, 1
- Choroideremia, subretinal neovascular membranes and, 70
- Comotio retinae (Berlin's edema), 233
- Conjunctiva, pigmentation of, pars plana vitrectomy and, 38
- Cotton-wool spots, calcification of, in AIDS, 84
- Cryptococcosis, chorioretinitis and endophthalmitis in, 75
- Cytomegalovirus:
 - infection, recurrent branch retinal vein occlusion and, 230
 - retinitis, intravitreal liposome-encapsulated ganciclovir in, 227

D

- Diabetes mellitus, posterior vitreous fluorophotometry in, 170
- Diathermy, for proliferative vitreoretinopathy, 219
- Diazepam, photomyoclonic reflex and, 237
- Digital image acquisition, in retinal disease, 246
- Drusen, in age-related macular degeneration (monkey), 198
- Dye laser photocoagulation (monkey), 46

E

- Electron microscopy:
 - age-related macular degeneration (monkey), 198
 - giant cell astrocytoma of retina, 183
- Electroretinogram, photomyoclonic reflex in, diazepam and, 237
- Endophthalmitis, cryptococcal, 75
- Eye, irradiation of, 142

F

- Fleck retina, in systemic non-Hodgkin's large-cell lymphoma, 209
- Fluorescein angiography:
 - in branch retinal vein occlusion, 252
 - choroideremia associated with subretinal neovascular membrane, 70
 - digitized images vs. in retinal disease, 246
 - fluorescein extravasation and skin necrosis, 89
 - follow-up of choroidal melanoma after irradiation, 148
- Fluorophotometry, vitreous:
 - in Berlin's edema, 233
 - in diabetic patient, 170
- Fluorosilicone oil, in open-sky vitrectomy, 180
- Fundus flavimaculatus, fundus picture simulating, in non-Hodgkin's lymphoma, 209
- Fundus photography, digitized images vs. in retinal disease, 246

G

- Ganciclovir:
 - intravitreal infusion, retinal toxicity (rabbit), 80
 - liposome-encapsulated, intravitreal clearance (rabbit), 227
- Gas injection, intravitreal, for retinal detachment due to macular holes, 177
- Globe, geometric alterations produced by scleral buckles, 14

H

- Hereditary ocular diseases, congenital X-linked retinoschisis, 20
- juvenile, bilateral congenital retinal detachment in, 24
- Herpesvirus, ganciclovir and, 80
- Histoplasmosis, ocular, spontaneous visual recovery in, 1
- Hyaloid face, posterior, vascularization and thickening of, in congenital retinoschisis, 20

I

- Immunocompromised host. *See also* AIDS
- varicella-zoster retinitis in, 9

K

- Keratoplasty, penetrating, keratoprosthesis for pars plana vitrectomy in, 34
- Keratoprosthesis, for pars plana vitrectomy, 34
- Krypton laser photocoagulation, for central serous chorioretinopathy, 162

L

- Laser filter, for indirect ophthalmoscope, 32
- Letters to the editor, 60
- Leukemia, acute lymphocytic, varicella-zoster retinitis in, 9
- Liposome-encapsulated ganciclovir, intravitreal clearance (rabbit), 227
- Lupus anticoagulant, in retinal vascular disease, 215
- Lupuslike syndrome, antiphospholipid antibodies in, 215
- Lymphoma:
 - large-cell, 209
 - intraocular, uveal tract thickening and, 41
 - non-Hodgkin's, fundus picture stimulating fundus flavimaculatus in, 209
 - varicella-zoster retinitis in, 9

M

- Macular degeneration, age-related, ultrastructural observations, 198
- Macular hole, retinal detachment and, 177
- Magnetic resonance imaging (MRI), CNS defects in Usher's syndrome, 241
- Melanin, in conjunctiva, pars plana vitrectomy and, 38
- Melanoma:
 - choroidal, postirradiation fluorescein angiography, 148
 - uveal, paraneoplastic syndrome vs. 137

N

- Nasopharynx, carcinoma, radiation therapy, retinopathy and, 142
 Nd: YAG laser, contact application, transscleral and intravitreal (rabbit), 190
 Neovascularization:
 in branch retinal vein occlusion, 252
 choroidal, in choroideremia, 70
 subretinal, in radiation retinopathy, 156

O

- Occlusion:
 branch retinal vein: clinicopathologic study, 252
 recurrent, cytomegalovirus infection and, 230
 central retinal vein, antiphospholipid antibodies in, 215
 Ophthalmoscope:
 binocular indirect ophthalmoscope argon laser delivery system, 28
 indirect, laser filter for, 32

P

- Paranasal sinuses, carcinoma, radiation therapy, retinopathy and, 142
 Paraneoplastic syndrome, benign, bilateral melanocytic uveal tumors associated with systemic malignancy, 137
 Photocoagulation:
 binocular indirect ophthalmoscope argon laser delivery system, 28
 dye laser (monkey), 46
 laser. *See specific lasers*
 Photomyoclonic reflex, diazepam and, 237

R

- Radiation therapy:
 for paranasal sinus and nasopharyngeal carcinoma, retinopathy and, 142
 retinopathy from, 142
 subretinal neovascularization in, 156
 ¹⁰⁶Ru/¹⁰⁶Rh brachytherapy, of choroidal melanoma, fluorescein angiographic follow-up, 148
 Retinopathy of prematurity, systemic, fundoscopic picture simulating fundus flavimaculatus, 209
 Retina:
 calcified cotton-wool spots in, in AIDS, 84
 disease of, digital image acquisition in diagnosis of, 246
 effects of dye laser photocoagulation (monkey), 46
 giant cell astrocytoma, 183
 vascular disease. *See also* Occlusion
 antiphospholipid antibodies in, 215
 Retinal blood vessels, effects of dye laser photocoagulation (monkey), 46
 Retinal detachment:
 congenital bilateral, in hereditary congenital X-linked retinoschisis, 24
 macular holes and, 177
 in retinopathy of prematurity, 260
 retroretinal membranes and, 94
 surgery, absorbable explants for, 102
 vitrectomy, scleral buckling and diathermy in, 219
 Retinal necrosis, acute (ARN), in immunocompromised patient, varicella-zoster virus and, 9
 Retinal pigment epithelium, retroretinal membranes and, 94
 Retinitis:
 cytomegalovirus, intravitreal liposome-encapsulated ganciclovir, 227

- varicella-zoster, in immunocompromised patient, 9
 viral, ganciclovir for, 80, 227
 Retinochoroidotomy, contact Nd:YAG laser, 190
 Retinopathy, radiation-induced, 142
 subretinal neovascularization in, 156
 Retinopathy of prematurity:
 pathologic correlation of clinical stages, 260
 surgical techniques for, 63
 Retinoschisis, congenital X-linked:
 juvenile, bilateral congenital retinal detachment in, 24
 vascularized vitreous membranes in, 20
 Retinotomy, contact Nd:YAG laser, 190
 Retroretinal membranes, in proliferative vitreoretinopathy, 94
¹⁰⁶Ru/¹⁰⁶Rh brachytherapy, choroidal melanoma, fluorescein angiographic follow-up, 148

S

- Sarcoma, reticulum cell, 209
 Scleral buckle:
 absorbable synthetic, 102
 geometric alteration of globe and, 14
 Silicone oil injection, scleral buckle and diathermy with, in proliferative vitreoretinopathy, 219
 Skin necrosis, fluorescein extravasation during angiography and, 89
 Subclavian steal syndrome, in branch retinal vein occlusion, 252

T

- Trauma, intraocular, Berlin's edema and, 233
 Type A behavior, central serous chorioretinopathy and, 111

U

- Usher's syndrome, CNS defects in, magnetic resonance imaging, 241
 Uveal effusion syndrome, in systemic reticulum cell sarcoma, 209
 Uveal tract:
 bilateral melanocytic tumors associated with systemic malignancy, 137
 thickening, intraocular large-cell lymphoma and, 41
 Uveitis, intraocular large-cell lymphoma and, 41

V

- Varicella-zoster virus, retinitis and, in immunocompromised patient, 9
 Vasoproliferation, in retinopathy of prematurity, 260
 Vernal atrophy, in Usher's syndrome, 241
 Virus infection. *See specific viruses; specific disorders*
 Vision, in ocular histoplasmosis syndrome, spontaneous recovery of, 1
 Vitrectomy:
 closed, for retinopathy of prematurity, 63
 for cryptococcal chorioretinitis and endophthalmitis, 75
 open-sky, fluorosilicone oil in, 180
 pars plana: conjunctival pigmentation following, 38
 corneal astigmatic changes after, 223
 keratoprostheses for, 34
 Vitreoretinopathy, proliferative:
 histopathology of retroretinal membranes in, 94
 scleral buckling in, geometric alteration of globe and, 14
 vitrectomy, scleral buckling and diathermy for, 219
 Vitreous membrane, vascularized, in congenital retinoschisis, 20
 Vitreous surgery, for retinopathy of prematurity, 63

X

- X-linked retinoschisis, 20, 24
